Web Development Portfolio

Bobfab.com – Created in September of 2005, the purpose of this site was to market and advertise my motor-sports and professional accomplishments. Currently on its third iteration it utilizes hand coded documents for simplicity in web design. The site also boasts a small but active message board utilizing Phorum protocol and totaling over 10,000 posts as of 4/1/2011.

Sdhaps.com, Whatdahaps.com, Obhaps.com – Created in February of 2011, this site services residents of San Diego county providing a premier nightlife calendar categorized by local communities. This project is in the process of completion and debugging and will make a full launch in by the end of Q2 2011.
